CIA Representative (MR X) presents:

- Three days ago, two autonomous UAV's, (like unmanned balloons) one named Ursa Major and the other Ursa Minor, were performing surveillance missions, collecting essential information in the airspace above the Republic of Bacpakistan. Then without warning we lost contact with Ursa Major.
- Satellite imagery indicates Ursa Major lost contact with controllers over this area (Visual). To protect U.S. interests, its sister aircraft, Ursa Minor has been grounded indefinitely. Ursa Major had enough fuel to travel approximately 250 kilometers considering wind and other factors.
- We have estimated that the UAV probably crashed in the following area ----
- Ladies and Gentlemen, we have leads that terrorist organizations, as well as other potentially hostile foreign nations want to get their hands on the information contained in the black box aboard Ursa Major.
- One of the operatives was dispatched to the 24 hours ago, but we have lost contact. We believe the operative left clues.

    - VIDEO #3 at related to MISSION, old fashion mission impossible

Your Mission, if you choose to accept it: Locate the missing black box recorder before it falls into enemy hands and its contents is used to destroy the Free World.

CIA Representative (MR X) presents:

Once patrols are trained, under the cover of darkness, on Saturday night we will use this map, and investigate this area. Follow instructions carefully.

We are scoring patrols on performance – **like top gun** – looking for the best patrol for the mission ; each of the skills / training will help develop four key areas which we think will be necessary to complete your mission

We are training you on a variety of exercises/skill to hone FOUR key areas

1. **Teamwork**
2. **Strength**
3. **Puzzle Solving**
4. **Endurance**

We will be scoring you **Realtime score** We will update you throughout the day with real-time scores (Lunchtime/Dinnertime)

- VIDEO #4 at SCORE SHEET?

Then, Saturday Night, the top scoring patrols will be sent to search and decode the black box

So, For tonight – here's a recap for tonight

1. Training on code breaking concepts (Dining Hall) with Food
a. Night hike – traversing trail in stealth mode

08:30 – 12:20 Morning Training sessions start (see map) 40 minutes each

1. Blind Folded Group Team work– will be an area that is heavily monitored and patrols will need to work together to navigate along the course in complete darkness – and silence, while avoiding detection
2. Obstacle Course – This will test and build patrol's Endurance and Teamwork and simulate navigating in the terrain expected to be encountered during the retrieval.
3. Satellite imagery indicates that some of bridges were washed out. Again, you will improvise and relying on your training to build a bridge, if needed
4. Find Mystery Code/Puzzle – The operatives who went in ahead of you, were trained to leave 'breadcrumbs' along their path that are encrypted so only 'our side' can decipher; we will teach you techniques to encrypt and to decipher coded hidden messages.
5. Laser/avoid enemy detection

Lunch

12:30 Saturday Lunch break for lunch in dining hall. NO time to waste going to camp site.
Call it a working/learning lunch. UPDATES from camp director, X and with video info.

JAWS OF DEATH – You will exercise your jaws on a buffet This is a light meal served buffet style scheduled midway through the day for everyone to enjoy.
It serves a few purposes.

- First it refuels young bodies.
- It serves as a midpoint where staff can check everyone's status.
- Is everyone accounted for?
- Are there any injuries?
- Are the events/missions going smoothly?

SATURDAY Afternoon

14:00-17:00 Escape rooms, First Aid/Rescue, Team Building, Waterfront

6 Captured: If you get captured, you may need to use decipher / look for clues to escape the room.
7. Emergency Medical Transport: In the event you come across our first-line agents injured – or if one of your patrol gets injured – we will review emergency medical and evacuation procedures
8 Group team building activities: you may be working with new units / patrols and need to quickly integrate as a team and function smoothly.
9. Lake There are several areas that have flooded due to changing weather conditions-creating lakes and rivers that are new. We have no boats available. The location of the bodies of water is unpredictable. You will need to think outside of the box and work with available resources.

7:00 Meet In dining room: Video Footage Score update
Announcement of patrols that will go on MISSION

Black Box Search and Recovery: 7:00 - 8:30

RECAP

- A reconnaissance plane has gone down over enemy territory. The pilot is a high-level intelligence officer who has knowledge of our covert operations. The patrol must act as a search and rescue team to find him, treat him for injuries if necessary, and transport him back to the station. You must find him quickly before someone else does.
- **During today's training exercises, patrols learned about codes/deciphering – and may have earned a clue**

20:30 – Scouts arrive in Arena for Campfire with box

Scouts arrive at arena with their specific black box
We wait for all scouts to return or until 21:35 (siren)
Black box is locked
(on black box, in black light sensitive ink- are clues) (if scouts use black light flashlight) like COLOR CIPHER
Patrols are handed envelopes containing 'flash-card' like color ciphers with 14 letters
Once Letters are arranged it will spell out
Loyal or **scout** or **brave** or **clean**

So, the letters (with color cipher) we will include will be

A, E, L, Y, O, L, S, C, U, T, B, V, R, N

Scouts can create at least these 4 5-letters words to open up black box
Inside the box – patches and cany – patches glow-in the dark
Loyal or **scout** or **brave** or **clean**
